Before 1986, no American had ever won the Tour de France. Since then, an American has won more times than not. It all started with Greg LeMond. He won the '86 Tour, and since then, cycling has never been the same.

Greg broke a lot of ground in his career. The first American to win the Tour, the first successful professional to use clipless pedals, cycling eyewear and aero bars – all common occurrences now. Greg changed the world of cycling – dramatically. But Greg isn't an advocate for change in all aspects of cycling. He remains steadfast in his opinion on frame geometry, proper cycling ergonomics and the feel and response of a bike. Legendary ride quality, above all else, is Greg's number one concern. ►

Greg LeMond

LEMOND GEOMETRY

LeMond Geometry is a blend of very traditional European designs, with Greg's updates for current frame materials and uses.

The result is a perfect balance of speed and comfort that puts riders behind, rather than above, the pedals. This positioning utilizes the strongest muscles of the legs to generate maximum power, opens the rib cage for better breathing and improves overall body aerodynamics. LeMond Geometry also balances body weight comfortably between seat and hands for all-day comfort.

Handling and cornering also become more stable, and riders stay fresher longer. ►

MINIMUM

The LeMond Carbon Triomphe and Triomphe Ultimate platforms – Meticulously sculpted with a combination of Finite Element Analysis (FEA), the world's finest carbon fiber techniques and all of Greg LeMond's experience in the saddle. The result is a study of contrasts. *Minimums and Maximums.*

Maximizing performance and minimizing all the things that get in the way of the ultimate ride. ►

minimum weight
minimum energy wasted
minimum compromise
minimum horizontal deflection

minimal seatstay yoke height
minimal road vibration

minimal bottom bracket height
minimal material and weight

minimal non-drive chainstay twist
minimal driveside chainstay flex

minimal head tube deflection
minimal steering corrections

minimal tube diameters on smalls
minimal size compromises

maximum performance
maximum comfort
maximum ride quality
maximum vertical compliance

maximum seatstay yoke width
maximum lateral stiffness

maximum bottom bracket width
maximum pedaling efficiency

maximum left chainstay width
maximum right chainstay height

maximum top tube shaping
maximum front end stability

maximum tube diameters on larges
maximum ride quality per size

MAXIMUM

Using dramatic tube shapes, LeMond engineers have been able to tune the ride and reduce the weight of the Triomphe Series. Tubes have been shaped wider in the plane where stiffness and rigidity aid performance, while the same tube may be dramatically reduced in the opposing plane to provide resilience. It's the perfect way to achieve the elusive combination of low weight and high performance. ►

TRIOMPHE ULTIMATE

The Triomphe Ultimate Series is the lightest LeMond frame platform ever.

Using high-modulus carbon in strategic areas along with full carbon dropouts and further refined tube shapes, LeMond engineers are proud to introduce the lightest LeMond frame ever. At a world class 850 grams in a 55cm, the Triomphe Ultimate may be the finest execution of the bicycle frame available. Although it's exceptionally low in weight, tubing shape provides the outstanding lateral stiffness necessary for this high performance racing platform. Aptly named, the Tete de Course or 'Head of the Race,' is LeMond's finest effort. ▶

TRIOMPHE ULTIMATE

Named after the French word for 'Victory', the Victoire is LeMond's lightest overall bicycle for 2008. Using the Triomphe Ultimate platform with a full Shimano Dura-Ace kit and Bontrager Race X Lite wheels, you get a climber's dream ride. But when combined exceptional vertical compliance that provides a best in class ride quality, the Victoire is an all day, every day high performance design. ►

TRIOMPHE CARBON

The Triomphe Series is available in 5 different models, two different frame weights. All feature the same Min/Max design philosophy, LeMond's legendary geometry and a variety of leading components from Shimano and Bontrager.

The Zurich, equipped with Shimano's new super light Ultegra SL, celebrates Greg LeMond's World Championship victory in 1983, in a small town just outside of Zurich, Switzerland. ►

ZURICH®

Color:	Pearl White/Unidirectional Carbon
Frame:	LeMond Triomphe Carbon (950 grams)
Fork:	Bontrager Race Lite, carbon
Wheels:	Bontrager Race
Group:	Shimano Ultegra SL
Crankset:	Shimano Ultegra SL 53/39 or 52/39/30
Size:	49, 51, 53, 55, 57, 59, 61 cm

BUENOS ARIES®

Color: Unidirectional Carbon/Ice Blue
 Frame: LeMond Triomphe Carbon (950 grams)
 Fork: Bontrager Race, carbon w/ Speed Trap
 Wheels: Bontrager Race
 Group: Shimano Ultegra / 105
 Crankset: Shimano 105 53/39 or 50/39/30
 Size: 49, 51, 53, 55, 57, 59, 61 cm

VERSAILLES

Color: Unidirectional Carbon
Frame: LeMond Triomphe Carbon (1050 grams)
Fork: Bontrager Race, carbon w/ Speed Trap
Wheels: Bontrager SSR
Group: Shimano 105 / with Ultegra rear derailleur
Crankset: Shimano 105 53/39 or 50/39/30
Size: 49, 51, 53, 55, 57, 59, 61 cm

ALPE D'HUEZ™

Color:	Unidirectional Carbon/Chi Red
Frame:	LeMond Aluminum/Carbon Spine
Fork:	Bontrager Race, carbon w/ Speed Trap
Wheels:	Bontrager SSR
Group:	Shimano 105
Crankset:	Shimano 105 50/39 or 50/39/30
Size:	49, 51, 53, 55, 57, 59, 61 cm

Aluminum Carbon Spine Design

By dividing the frame into two distinct components, LeMond is able to provide the best of two frame materials in one platform. The carbon cockpit reduces weight and road vibration while the aluminum spine provides outstanding lateral rigidity. ▶

TOURMALET™

Color: Metallic Black
Frame: LeMond 6066 AC/DC Performance Aluminum
Fork: Bontrager Race, carbon w/ Speed Trap
Wheels: Bontrager SSR
Group: Shimano Tiagra / with 105 rear derailleur
Crankset: Bontrager Select 53/39 or 50/39/30
Size: 49, 51, 53, 55, 57, 59, 61 cm

Aluminum Carbon Damping Composite (ACDC)

With carbon fiber chainstays, seatstays and front fork, all paths from the road to the rider are smoothed by carbon's shock damping properties. ▶

ZURICH® WOMEN'S

Color:	Hot Pearl Pink/Unidirectional Carbon
Frame:	LeMond Triomphe Carbon

Size:	45, 49, 53 cm

LEMONDS FOR WOMEN

Over the years, some of the fastest women in the world have raced on LeMond Racing Cycles. With their input, we have designed woman-specific versions of our most popular frames and outfitted them with equipment designed for women riders.

We've added a woman-specific saddle, reach-adjustable brake levers for smaller hands, shorter crank arms, shorter stems, and a shorter-reach version of our famous LeMond Geometry. It features the same balanced position. Same comfortable, stable ride. Same relaxed seat tube angles, putting the rider slightly behind the crank arms, to take advantage of a woman's proportionally longer femur. Women can ride any LeMond, but our women's models make an optimum fit quicker and more comfortable from the start. ►

Size:	49, 51, 53, 55, 57, 59, 61 cm

PERFORMANCE ALUMINUM

Even though the LeMond Performance Aluminum models are the lowest priced LeMonds, these bikes are easily lighter and higher performance than anything Greg LeMond had the opportunity to race. In fact, we would compare the LeMond Performance Aluminum frames to any full aluminum frameset raced at the pro level today. ▶
