A FOLDING STAR IS BORN

In the late 1970's I had a vision to reduce carbon emissions in the US. It came about from seeing big, gas guzzling cars, crowded highways, and people beholden to their car based lifestyle. I thought people needed a green and easy solution to get around...so I created my first compact, easy to fold bicycle. My hope was that this folding bicycle could break down all barriers associated with riding a big, cumbersome size bike in urban and commuter situations, even allowing bimodal commuting with the greatest of ease. The vision of people using this healthy, fun and most importantly green bike to zip around town drove my desire to help. While peddling this idea around to possible OEM partners, my brother Henry and I called on many of the major bicycle brands in the U.S., Japan, Taiwan and China—but no one was interested in this very new, “niche” product: “too big a technical bite”, “too risky” they all said. I felt, from my experience that Taiwan was to become a powerhouse in bicycle manufacturing, I took a leap of faith and made what was then a very bold decision to set up Dahon's own factory there. This truly was a big bite – and Henry and I took it.

Shiny, stainless steel “city hoppers” began rolling from the assembly line in the new Taiwanese factory by 1984 – and they were a success. In the first six months of that year, 6,000 folders were built and sold, and Californians were the first to love them. Soon, the word spread throughout the US, and they were rolling out bikes by the tens of thousands.

30 years after, Dahon is the best-known name in folding bicycles around the world. But the pursuit of newer, better light mobility technologies continues. The 2014 DAHON collection is our lightest, fastest, and best looking range so far... and more importantly its more convenient than ever, to fit a bicycle into your life.

Dr. David Hon
Founder & CEO, Dahon

urban
SMART. FASHIONABLE.

Urban

Curve D3

SPECIFICATIONS:

Speed:	3-speed
Wheel Size:	16"
Frame Material:	aluminum
Weight:	11.2kg (24.6lbs)
Folding Size:	66 x 69 x 33cm
Color:	cloud/malbec

“Express your personality with this nimble commuter, offered in rich Malbec or striking Cloud White, the Curve D3 is for the individualist, fitting into your life as smoothly by day as it folds into the corner of your studio apartment at night. Superior Dahon technology to maximum freedom and movement.”

Simply
Magnificent

Urban Mu Uno

SPECIFICATIONS:

Speed:	Single
Wheel Size:	20"
Frame Material:	aluminum
Weight:	10.8kg (24.0lbs)
Folding Size:	65 x 78 x 31cm
Color:	obsidian/frost

“ Less is more - we hit the bull's-eye when it comes to the Mu Uno. Just point and pedal! It folds smoothly into small storage spaces, is easy to carry up apartment stairs and is delightfully simple to ride. Just you, the road, and the Dahon Mu Uno.

”

“ Don't let the Jifo's small size fool you, this agile 16" urban bike lets you ride with confidence. Crafted in our Superlight Dalloy Aluminum it is sure to zip through any traffic jam or ride alongside you in the train - barrier free! ”

SPECIFICATIONS:

Speed: Single
Wheel Size: 16"
Frame Material: aluminum
Weight: 9.4kg (20.5lbs)
Folding Size: 61.5 x 62 x 24cm
Color: shadow/cerise

Urban **Jifo**

Jet-setter

recreation

TAKE IT WITH YOU. FUN.

“ An eye catcher on any road in Shadow Black with Anodized gold trim, the IOS S9 has a lot to offer. Made to go the extra mile uphill or down, with high pressure, fast rolling 24" wheels wrapped with Kojak tires from Schwalbe, this folding bike's extras will make the most discerning technophile nod with approval. Dahon flatpak technology lets you stash it in a hurry. Its a big wheel ride, with a small footprint. ”

Recreation
IOS S9

SPECIFICATIONS:

- Speed: 9-speed
- Wheel Size: 24"
- Frame Material: aluminum
- Weight: 12.9kg (28.4lbs)
- Folding Size: 77 x 85 x 40cm
- Color: sable

Big Wheel Ride Folds

Wafer-thin

Recreation Speed P8

SPECIFICATIONS:

Speed:	8-speed
Wheel Size:	20"
Frame Material:	Cro Mo
Weight:	12.3kg (27.0lbs)
Folding Size:	67 x 82 x 32cm
Color:	fire/frost

“As clear and crisp as it's color palette Fire Red and Frost White - the Speed P8 knows where it's going and how to get you there in style. True value in performance and style, the Speed P8's stiff frame, intuitive steering and comfy 20" Big Apple tires are comfortable and even on the worst roads. You might just find yourself taking the long way home.”

Fast & Formidable.
No Compromises!

Movin'
& Groovin'

Recreation
Vybe C7A

SPECIFICATIONS:

Speed:	7-speed
Wheel Size:	20"
Frame Material:	aluminum
Weight:	11.5kg (25.3lbs)
Folding Size:	65 x 82 x 32cm
Color:	shale/marine/frost/obsidian

“There's no better way to get around than with a well-tuned “Vybe”. Our lightweight Dalloy Aluminum Vybe C7A gets you movin' with a fun, modern design and seven speeds of versatility. This groovy folding bike delivers on the promise of convenience and true riding comfort, with all the compact folding features today's busy people have come to love!”

hi-performance

EXCELLENCE. WHEREVER.

A man in a white polo shirt and khaki shorts is riding a black folding bicycle down a narrow, sunlit alleyway. The alley is flanked by tall brick walls. The man is leaning forward, pedaling. The bicycle has a black frame, handlebars, and wheels. The scene is captured in a cinematic style with warm lighting.

First.Class

Hi-performance
Mu Rohloff

“ Enjoy the thrill of all weather adventure trekking or athletic jaunts in the park while still having the compact folding convenience from the engineers at Dahon. Built on our ever-popular lightweight Dalloy Aluminum Mu frame, this Hi Performance bike sports top-of-the-line European components for an unparalleled riding experience and durability. ”

SPECIFICATIONS:

Speed:	14-speed
Wheel Size:	451mm
Frame Material:	aluminum
Weight:	12.1kg (26.8lbs)
Folding Size:	68 x 85 x 47cm
Color:	agate

Full-size Ride,
Small-size Fold

SPECIFICATIONS:

Speed:	9-speed
Wheel Size:	20"
Frame Material:	aluminum
Weight:	11.7kg (25.7lbs)
Folding Size:	66 x 81 x 34cm
Color:	polished/charcoal

“ An economically priced sibling of the Vector family, the P9 stills sports all the performance expected of a Hi Performance frame. It can tackle any road through the urban jungle or breeze through your local rails to trail cinder path, while still quickly folding into your car's trunk. With a Dalloy Hydraformed frame and the versatility of a compact fold, experience the difference of a Vigor! ”

Hi-performance
Vigor P9

A Superhero on Wheels

“ Super Premium Super Light Performance for the road. Sporting several Carbon Fiber parts such as Fork, Seatpost and Handlebar. This is a no compromise performance ride, you might say “this bike flies”. A perfect ride for setting PR's around Central Park, or chasing the sunrise from the foothills early Sunday morning. Enjoy the speed, the freedom, and the convenience the Dahon Mu EX has to offer. ”

Folding Size:
69x91x36cm

ALUMINIUM

Patented Dalloy Aluminum offers 20% more frame strength than those made of 6061 aluminum. Double-buttet Dalloy tubes are thicker at the ends - where welding takes place and stress is highest - but thinner toward the center to minimize weight.

CHROMOLY

A quality steel frame, built to last a lifetime, is still the choice of many discerning cyclists. Dahon uses drawn 4130 Chromoly steel exclusively. 60% stronger than high tensile steel, our Chromoly tubing is thinner and significantly lighter - weighing less than many aluminum frame bikes from other manufacturers.

HI-TEN STEEL

A quality bicycle starts with a quality frame. Our high tensile steel frames are built with high carbon steel that has higher tensile strength and allows us to minimize material. TIG welding ensures that the joints will hold up for years of riding, folding or whatever life throws your way.

DASH P18

ACCESSORIES

01 Pedal Bag
Neatly holds Quick Draw Pedals
Keep dirty pedals from clean belongs
160mm x 100mm x 50mm for each compartment

02 Carry Bag
Made out of extra strong Nylon with heavy duty zippers and a robust seat-belt webbing
5 mm of padding to keep your Dahon safely protected
Fits most 16", 20" and 24" Dahon bicycles

03 Sherpa Bag
Large clear pouch on top to hold Smartphone or GPS
Two separate compartments, each 160mm x 100mm x 50mm
Reflective trim for high visibility at night

04 Attache Computer Bag
Water resistant for keeping contents safe and dry
Quick release latch and carry handle to easily take bag with you
Large capacity to carry what you need for work or play

05 Concierge
Quickly removable to take with you
Reflective trim for high visibility at night
5L (305 cu inch) volume / 7kg (15.4 lbs.) load capacity

06 Stow-away Bag
Durable Nylon Fabric
Drawstring pouch for easy accessibility
Provides instant and portable protection for your bike

07 Sky Cap
Two built-in wheels for easy upright rolling and 360 degree turns
Dimensions: 710mm x 880mm x 350mm
Weight: 10kg (22lbs)

08 Micro Bell
Super small size-32mm diameter dome
brass dome for classic bell sound
universal fit on most bikes and easy to install

09 Valet Truss
Made with super strong, aircraft grade aluminum
Mounts to bikes frame, not the handlebars, keeping weight centered
Holds up to 9kg (20lbs)

10 Quick Coupler
Holds Dahon bags, racks and most other types of bags and baskets.
Instantly converts from a cargo carrier to shopping bag
Quick-release safety locking system

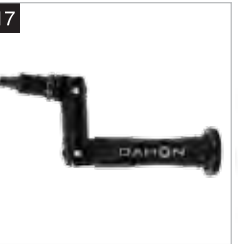

11 Ultimate Carrier
Multi-level lightweight frame construction
Fits most DAHON bikes
Accommodates optional stash box

12 Stash Box
Incorporated handle for easy store and go transport
The 270° top zipper allows for easy pouch access
Sturdy base construction makes it strong and reliable

13 Front Cargo Basket
Secure frame attachment won't affect steering
low center of gravity for increased stability
strong, wide and durable, open frame design to carry more

14 Front Luggage Rack
Frame mount means no steering load is added
sturdy tubular alloy construction
Available cargo net for extra security

15 Landing Gear
Quickly folds up and away when the bike is unfolded for use
Strong, stable 6061 aluminum shaft with 6.35 cm diameter wheel
Allows the bike to roll without lifting or strain

16 Postpump
Seamlessly incorporated into seatpost
Reaches 100 psi in less time than other mini-pumps
Postpump head adapts to fit Presta and Schraeder valves

17 Dr. Hon Cure-all Tool
Stealthily stores in the bicycle's handlebars
Transforms into 3 different tools by simply folding at the joints
Only 145mm long

18 Quick Draw Pedals
Retrofits to any 9/16" thread crank
Pedals can be easily removed and installed with one hand,
in seconds
