

MOTOBECANE

MOTOBECANE was established over half a century ago and is now the largest two wheel manufacturer in Europe, which specializes in producing Motorcycles, Motorbikes, Standard Bicycles and hand built touring and racing bicycles.

MOTOBECANE exports to many countries around the world with a special design to suit the needs of each. The bicycles in this catalogue are built for the U.S. market with unique specifications especially adapted to the American taste and riding habits.

To ensure that the bicycles are manufactured in accordance with the regulation of the Consumer Product Safety Commission (CPSC), MOTOBECANE commissioned the independent laboratory UTAC. Their procedures include the determination of frame strength, vibrational analysis, fatigue test, load test, etc.
