Every Team Champion is identical in componentry and design and comes from the very same workshop and craftsmen as the bicycles created for the Motobecane/La Redoute professional racing team. At 19.4 lbs., available in Night Blue.

JUBILEE SPORT

*In the tradition of respected names — the JUBILEE legacy continues . . .
The latest in a proud lineage — the JUBILEE SPORT —
for recreation, touring or sport.*

Its heritage is the frame —

- Now made lighter with COLUMBUS tubing, more durable through Motobecane's exclusive process of internal and external fusion called INEXTERNAL™ BRAZING.
- Seat stays are double-tapered for a stiffer rear frame triangle.
— the result is a strong and very rigid frame for a solid and responsive ride.

Its heritage is careful attention to detail —

- Vertical rear dropouts that allow rapid removal and/or installation of rear wheel.
- Brazed-on down tube shifter and bottle cage fixture bosses.
- Clean aerodynamically sculptured appearance bred for the open road.

Its heritage is alloy equipment — that looks sharp, performs beautifully and keeps weight to a mere 23.5 lbs.

- MAILLARD HELICOMATIC cassette style, alloy front/rear hubs with quick release.
- MAILLARD CX500 alloy pedals.
- MAVIC alloy rims.
- ATAX alloy stem with recessed allen bolt.
- WEINMANN 506 side-pull brakes with quick release and recessed allen head pivot bolt.
- SUN TOUR BLUE LINE derailleur system front and rear.
- NERVAR forged alloy cotterless crankset.

Its heritage is attractive styling — like the rear brake cable aerodynamically routed through the top tube. Sleek and trim, the JUBILEE SPORT is available in exciting new colors like two tone Brilliant Blue/Metallic Blue, and Pale Yellow/Blue.

DISTINCTIVE IN DESIGN AND RESPONSIVE IN PERFORMANCE!

■ **INEXTERNAL™ BRAZING:**

Unlike the conventional method that only brazes frame tubes externally, Motobecane's exclusive **INEXTERNAL™ BRAZING** manufacturing process brazes frame tubes internally and externally. The result is a more rigid and stronger frame.

CONVENTIONAL

INEXTERNAL

■ **MAXIMUM STRENGTH REAR TRIANGLE:**

Assuring a rear triangle and overall frame design with optimum weight/rigidity ratio, Motobecane double tapers its seat stays — and aerodynamically positions them behind the seat tube. The result is a stiffer rear frame triangle and tubing thickness where it counts — at the rear brake bridge mounts.

■ **FORGED VERTICAL REAR DROPOUTS:**

Motobecane's vertical rear dropouts lets you remove or install a rear wheel without a wheel alignment adjustment.

THE VERSATILE JUBILEE SPORT IS AN UNBEATABLE VALUE!

MIRAGE SPORT

Top-notch components and quality French craftsmanship make this an excellent choice for reliable, affordable cycling. Motobecane's Mirage Sport state-of-the-art lug-less INEXTERNAL™ BRAZED frame will hold your attention with its clean sculptured look. Sophisticated French equipment includes: HURET RIVAL derailleur system MAILLARD quick release alloy hubs and NERVAR alloy cotterless crankset. Available in Gun Metal Grey/Anthracite, Burgundy/Dark Burgundy, Pearl White/Blue.

NOMADE

A quality lightweight that's attractive in price as well as in styling and perhaps the most exceptional bicycle value in its pricing range. Nomade is made to Motobecane's exacting specifications to ensure a clean, rewarding ride. Nomade's INEXTERNAL™ BRAZED frame and popular components like HURET ECO derailleur, WEINMANN alloy brakes with quick release levers, MAILLARD alloy hubs with quick release front wheel and anatomic style saddle for comfort are a few reasons Nomade sets the standard for value and performance. Available in New Red/Burgundy, Brilliant Black/Red, Blue/Dark Blue.
