CY10FC

Our carbon fiber frame set is the standard to which all other frames are compared. Our successful sales record of the CY10FC is surpassed only by its winning record on the professional racing and triathlon circuits throughout the world. Not to be confused with lesser grades of carbon fiber frames, our CY10FC stands along as the "State of the Art" in the market today.

PZ

A combination of the most respected names in racing such as Reynolds professional tubing, Campagnolo Super Record Gruppo, Maillard 700 freewheel and Mavic GP4 rims has made this bicycle the ultimate pro-racing machine.

PX

For some, combining the best components from France along with the best Italian frame tubing would create a dream machine. We made the dream come true by using a Columbus SLX frame set and outfitting it with a complete Mavic ensemble. The PX, with its incredibly low price will be the envy of all other bicycles in its class.

21 lbs.

*Mont Cenis***PSN**

The amazing price/weight ratio and true racing geometry has made this model a success among serious athletes for the last three years. For 1986, we have kept the same proven Super Vitus frame and fork, and we equipped it with the famous Campagnolo Victory crankset and derailleurs, black Modolo Speedy brakes, and Mavic MA40 rims. Pound for pound the Mont Cenis offers more value than any other bike in its category.

21.6 lbs.**Triathlon Repair Kit****Triathlon Derailleur****PSN Brake****PSN Crank****PSN Derailleur***Triathlon*

A responsive, high performance bicycle designed with the triathlete in mind. The Super Vitus Double Butted frame is equipped with a pump peg, and three water bottle braze-ons to enable the rider to carry the equipment he requires, as well as, a chain rest for quick rear wheel changes. The bike, complemented by a very special package of French racing components, also features a repair kit containing a spare Helicomatic freewheel and wrench, two Quick-Fill Cartridges, an extra tube and a set of levers.

21.7 lbs.

Galibier

PGN

The Galibier features a fully lugged Reynolds 501 Chrome-Moly frame and fork with a full complement of braze-ons found only on the most prestigious bikes: pump peg, chain rest, double water bottle eyelets, and cable tunnel guides. The component group includes the Huret and New Success derailleur and Stronglight 200 Deluxe Crankset. This is an excellent choice for the rider who wants a genuine racing bike at a moderate cost.

22.5 lbs.

PGN Brake

PGN Crank

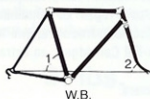

PH 501 Brake

Ventoux

PH 501

Peugeot's innovation shines through again with our internally brazed frame made of Reynolds 501 Chrome-Moly double butted tubing. This frame teamed with a Reynolds 501 fork and all European alloy components gives the Ventoux a remarkable weight of 22.8 lbs. and a ride that is truly worthy of the French tradition.

Tourmalet

PH 10LE

The Tourmalet is "The Choice" for those who desire the tight geometry and performance of a racing bike along with the comfort of a touring bike. The frame features "HLE" tubing, forged dropouts and double water bottle braze-ons while the components are strictly European. The Tourmalet is an all French 12 speed with an exceptional value by world standards.

SPORT

Avoriaz

P8

The Avoriaz and Avoriaz Ladies are the lightest and best equipped models in the recreational Peugeot line. Along with their forged crankset, Helicomatic freewheel, front and rear quick release and sealed hubs, they now feature the very light and resilient internally brazed "HLE" tubing which was so successfully introduced on last year's more expensive models.

Iseran

P6 219.95

The bike of the 80's! We have combined our very light and responsive Carbolite internally brazed frame with carefully selected alloy components including quick release alloy wheels to obtain a lighter, more responsive machine without sacrificing durability. The Iseran will surely be a leader of the pack—performance you would expect from a bicycle costing much more.

CORBIER	66cm	72°30'	73°	42"

Corbier

P4

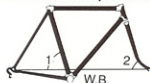

The Corbier and its ladies companion are the least expensive Peugeot 10 SP bicycles currently available. Yet, they offer the internally brazed Carbolite 103 frame. This frame has become well known for its lightweight performance and reliability. European and French componentry make these bicycles unique in the market place, however, BSC dimensions allow complete interchangeability with parts from all over the world. They are the perfect bicycles for the discriminating rider who wants a "French Ride" at a very affordable price.

28 lbs.

Canyon Express

From BICYCLING Magazine, January 1986: "Peugeot didn't skimp on componentry. The frame is adorned with most of the same equipment found on costly limited-production and custom ATB's...The Canyon Express is loaded with minor touches that spell the difference between just another nice ATB and one that's truly engineered to serve and please the rider."

Canyon Brake and Crank

Canyon Brake

Canyon Handlebar

Orient Handlebar

Orient Crank

Orient Express

The Orient Express, very much like its big brother the Canyon Express is built for tough and fast off road riding. The oversize Chrome-Moly tubing, Suntour XC Sport derailleurs and rear power brakes, sealed hubs, bottom bracket and headset are just a few of the features which distinguish it from all the others in its class.

U.S. Express

The U.S. Express is the newest addition to our ATB line. Such features as oversize tubing, forged dropouts, alloy wheels, uni-crown fork, anatomic saddle, and bear trap pedals give the U.S. Express the comfort and versatility of a genuine mountain bike at an unbelievable price.

P20

At last, a folding bicycle that is as easy to ride as it is to fold. The P20 with its 20" wheels and 3 speed Sturmey Archer gearing system will bring you many years of comfortable riding. It folds in almost no time and fits almost anywhere.

City Express

The City Express was designed to be a commuting bike right from the very beginning. Its chrome-moly frame and alloy wheels are what make it a lightweight, sturdy vehicle. The comfortable saddle, upright handlebar, and cantilever brakes are part of the reasons why this bike is ideal for all types of road surfaces in or out of traffic.

Urban Express

The Urban Express has been refined and once again it stands as one of the finest city bikes available today. Its Chrome-Moly frame and Mangalloy fork provide more than enough strength to handle the toughest streets. The 18 speed gearing system and Shimano Light Action derailleurs provide the transmission to climb the steepest terrain. For safety and durability we have sealed all the major bearings and used stainless steel spokes.

Pipeline 1

For years, the Peugeot Pipeline has been a popular way to get around town or to the beach. It is classy yet sturdy with its elegant mountain bike frame geometry. Its aluminum rims provide the easy ride of a lightweight bicycle and its stainless steel spokes provide adequate protection against corrosion. The extra wide saddle and foam handlebar provide the much needed comfort for such a recreational bicycle. A ladies version is also available.

Pipeline 5 Brake

Pipeline 5

All the style and advantages of the Pipeline 1 are found in this model which also features 5 speed gearing and cantilever brakes for longer range and greater stopping power. Definitely not the average cruiser!

EXERCISE AND CHILDRENS BIKES

Exercisor

Peugeot's Exercisor is the result of a world wide search to bring you a high quality unit at a reasonable price. The wide, padded saddle and cushioned grips contribute to a very comfortable, solid machine. Handlebar and saddle adjustments are made in a flash with convenient quick release mechanisms. The electronic time and speedometer are easy to read and reset.

Exercisor Panel

CP 16

The CP16 is a bicycle designed to be handed down from child to child as your family grows. The removable top tube permits the bike to be ridden by boys or girls ages 3-6. Durability is assured by the use of full bearing pedals and 28 spoke full bearing wheels. For safety, the bicycle comes equipped with training wheels to assist your child until he can ride on his own.

C46/M46

A bicycle designed for the youngster who wants a real ten speed bicycle. Here are two junior size versions of our adult models — at a fraction of the price. The M46 and C46 combine our touring frame designs with 24" wheels and an adult component group.

CHILDREN AND BMX

CP 20

A bicycle that appeals to young ladies ages 6-12 who desire the traditional hi-rise style with a contemporary look. A new two-tone finish with color coordinated graphics and components will win your little girl's heart, however, durability and safety are not forgotten with its 36 spoke wheels and full bearing construction.

CPX50

Designed to start your child, ages 4-7, out on the right path to BMX, this rugged and reliable bicycle comes complete with C.W.-Style bar, rear coaster brake, and a full set of "Peugeot" pads.

CPX99

This bicycle is the result of Peugeot's obsession to offer a reliable, strong 20" BMX bike at a very affordable price. The CPX99 features oversize L1011 tubing, Shimano coaster brake, 36 spoke wheels and a C.W.-Style bar.

CHILDREN AND BMX

CPX100

An upscale version of the CPX99, the CPX100 has many of the features of high-priced freestyle bikes without the high price tag. This unit offers L1011 special oversize tubing, with an Akisu crownless fork. The componentry consists of a lay back seatpost, C.W.-Style bar, Chang Star brakes, forged crank with power disc, and a full "Peugeot" pad set.

Ranger Express

At last, a bicycle for the active child who wants a real all terrain bike and will not compromise for a BMX version. Built with the same philosophy as Peugeot's adult all terrain bicycles, the frame of the Ranger is especially designed for longer and easier off road riding. Its five speed gearing system, derailleur guard, and sidepull brakes offer safety, versatility, and reliability for the young rider.

Ranger Brake

Ranger Derailleur

Tricycles

Constructed for the parent's peace of mind and the child's enjoyment, The Peugeot trio of tricycles with their fully welded frames complete our full family of bicycles. These trikes are built to the same rigid standards of quality as the rest of our line.

LIMITED LIFETIME WARRANTY

Subject to the conditions and limitations set forth below Cycles-Peugeot, USA, Inc. "C.P.U.S.A." 555 Gotham Parkway, Carlstadt, New Jersey 07072, warrants to the original owner thereof every new Peugeot bicycle, including all parts and accessories (except tires, light bulbs and lenses) furnished with it as original equipment by the factory, supplied by C.P.U.S.A. and purchased from an authorized Peugeot bicycle dealer to be free from defects in the materials or workmanship under normal use for so long as it is owned by the original owner.

Cycles-Peugeot USA Inc. will replace any part covered by the above warranty which becomes defective, malfunctions or otherwise fails to conform with the warranty at no charge for parts. In order to obtain warranty service, the bicycle, together with the bill of sale or other dated proof-of-purchase document identifying the bicycle frame number, must be presented to an

authorized Peugeot dealer in the United States. Transportation costs and dealer's labor charges are not covered by this warranty. The names and addresses of authorized Peugeot bicycle dealers are listed in telephone directories or may be obtained by writing Cycles-Peugeot, USA Inc. Important: In order to validate this warranty, the Warranty Registration Card must be completed and returned to C.P.U.S.A.

Any implied warranties, including warranties of merchantability and fitness for a particular purpose shall be limited in duration to the period of time set for the above. C.P.U.S.A. shall not be responsible for incidental or consequential damages. So the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights which vary from state to state. This is the only warranty applicable to Peugeot bicycles; C.P.U.S.A. neither assumes nor authorizes anyone to assume for it any other express warranty.
